

Solar Power Generator

PS-100

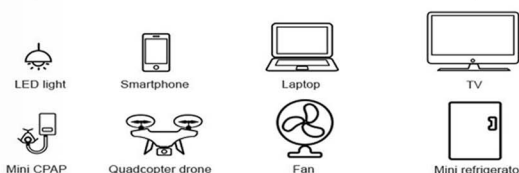

Awesome for
camping, emergency
power outage places
or disaster areas.
& LG cell inside

Features :

1. This unit has a built-in pure-sine wave inverter that provides the quiet power.
2. LED Light: With flash light and QC3.0 function.
3. Two Charging Ways: It allowed to be charged by solar panel, or adaptor.
4. Battery Management System(BMS) : BMS conducts active cell balancing to optimize battery performance and longer battery life.
5. Airduct Design: It makes the heat dissipation very well.
6. Multiple Options: UK, US, and Universal socket for option.
7. Protection: Over current, Over charge, over discharge, over temperature, over voltage, short circuit, recovered output after 30 seconds.

What it powers

AC Output: 110V/60Hz or 220V/50Hz, Rated output: 120W, Max 200W, surge 2S
 USB Ports: 2*USB 5V/2.4A, 1*QC3.0(5V/3A, 9V/2A, 12V/1.5A)
 Capacity: 7V/41600mAh(154Wh)
 Battery: Li-ion 18650 Battery cell
 Material: Aluminium Alloy+ABS+PC

Specifications :

1. Input : DC19V/2A (By solar panel or adaptor)
2. LED light : Torch, SOS, Emergency
3. Inverter: 11* 110V/60Hz or 220V/50Hz
4. AC Rated Output 120W ,Max 200W Surge 2S
5. Power Inverter : Pure sine-wave
6. Capacity : 3.7V/41600mAh
7. CE/FCC/RoHS approved
8. Product size : 230*90*90mm
9. Net Weight : 1.8Kg
